

# Rahul Verma

Senior Flutter Developer & Mobile Architect

[rahulverma0549@gmail.com](mailto:rahulverma0549@gmail.com) [+91-9315338608](tel:+91-9315338608) [LinkedIn](#) [GitHub](#) [Portfolio](#) Faridabad, Haryana

## SUMMARY

Senior Flutter Developer with 5.5 years of experience building high-performance, cross-platform mobile apps for Android and iOS. Proficient in Flutter, Dart, REST APIs, Firebase, and state management (Bloc, GetX, Provider). Skilled in scalable architecture, secure authentication, third-party SDK integrations, and performance optimization. Strong in code reviews, mentoring, and delivering clean, production-ready solutions in Agile teams.

## TECHNICAL SKILLS

|                                                                                       |                                                                                              |                                                 |                                                                               |

## EXPERIENCE

- Senior Flutter Developer** — *OneTick Technology Pvt. Ltd.* Dec 2025 – Present
  - Architected a modular Flutter app using Bloc and clean architecture, reducing state-related bugs by 30%.
  - Led a team of 3 developers on a high-traffic financial app — 40% faster load times, 25% user retention uplift.
- Senior Flutter Developer** — *Almond AI* Mar 2024 – Nov 2025
  - Refactored legacy codebases to improve performance and long-term maintainability.
  - Implemented real-time data sync using Firebase for social platform features.
- Flutter Developer** — *Codewire Tech Pvt. Ltd.* Sep 2022 – Feb 2024
  - Spearheaded a school bus tracking system integrating Google Maps API for real-time location.
  - Reduced development cycle by 20% through CI/CD pipelines with GitHub Actions and Codemagic.
- Junior Flutter Developer** — *Soumya Technology* Jan 2021 – Sep 2022
  - Delivered 8+ projects from concept to production with real-time location tracking via Google Maps and Firebase.

## KEY PROJECTS

|                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                           |
